1 Introduction

2 Title of your first chapter

Before you begin the first subsection, you should briefly name and introduce the subsections within the section.

2.1 Title of your first subsection

And now, you just have to write a wonderful seminar paper :).

2.2 Title of your second subsection

A subsection should always be accompanied by at least one more subsection (otherwise its content belongs to the section itself). The same applies to sub-subsections.

2.2.1 Title of a sub-subsection

Akaike (1974), (Hastie et al., 2009)

2.2.2 Title of another sub-subsection

An example formula within text is $a^2 = b^2 + c^2$. Another formula is

$$\bar{x} = \frac{1}{n} \sum_{i=1}^{n} x_i \,, \tag{1}$$

which can be included in the text like this.
